

Proof of employment for in-home and community aged care workers

In-home and community aged care workers are a priority group for COVID-19 vaccination under phase 1b of the national vaccine roll out.

All vaccine providers are requested to provide priority access to in-home and community aged care workers.

The Australian Government strongly encourages in-home and community aged care workers to receive a COVID-19 vaccine as quickly and safely as possible:

- workers aged under 60 can receive the Pfizer vaccine and,
- workers aged over 60 can receive the AstraZeneca vaccine.

This document confirms proof of employment for in-home or community aged care workers as a priority group for COVID-19 vaccination.
